Postgraduate students - FREE (need to submit letter from HOD).

Supported by "Sahrudaya Health, Medical and Educational Trust"

RSVP: Mr. K. Sreenivas Reddy - 98499 88623

Dear Colleagues,

Greetings from Yashoda Group of Hospitals!

The success of the 2nd Live Workshop on MICS has led us to organize **3rd Live Minimally Invasive Cardiac Surgery Workshop**, again in the same place.

We all know, like many other surgical fields, one day most of the cardiac surgeries have to become minimal access procedures without compromising on patient safety and long term outcomes. Whether we accept minimal access cardiac surgery or not this is where we are heading for. With ever-growing technology and patient demands in this area, we either learn to adopt this and move ahead or get ready to slow down. For some patients minimal access surgery is going to be a big boon.

This year we are honoured to have two well known international faculty members who are at their forefront in their specialities with rich experience in minimal access cardiac surgery who will be performing coronary artery bypass surgery and mitral valve surgery. National faculty includes most of the surgeons who have been performing these surgeries

The highlight of this year's MICS Workshop will be an interesting symposium, "Trouble shooting during MICS - how I handled", by some of the surgeons with experience in MICS. This can help us avoid common problems in this upcoming area.

On behalf of the organizing committee, we are delighted in inviting you to this workshop for a truly exceptional experience.

Warm Regards

Dr. G. S. Rao
Managing Director
Yashoda Group of Hospitals

Dr. A. G. K. Gokhale,
M.Ch, SMP(IIM-C) DNB
Division of Cardiothoracic Transplant
and Minimal Access Surgery
Yashoda Hospitals, Secunderabad
